This user guide demonstrates how to add a mobile bookmark of your Personal Financial Website login page from the Chrome app on your iPhone. This bookmark will provide quick and easy access from your device's Home screen.

Please Note: To successfully add a shortcut to access eMoney in Chrome on your iPhone, you will need to have the Google Chrome app downloaded. You can download this app from the App Store.

Add a Mobile Bookmark

1. Open the **Shortcuts** app—your iPhone have this app downloaded by default.

2. Click the + icon in the top-right will corner to add a shortcut.

3. Tap the + Add Action button.

9. Enter your Username and Password to sign into the application.

Please Note:

When logging into your mobile website, you will be asked to set a passcode of 4 or more digits. This is entirely optional, but if you decide to utilize the passcode, any login attempt moving forward will prompt for your passcode instead of your username and password.

If you are experiencing issues with the mobile website displaying properly, it might be due to blocked cookie settings. To check this on your device, go to **Settings**, **Safari**, and make sure **Block All Cookies** is toggled off. Once the setting is updated, close Safari and log back into the mobile website.
